No

If you have paid campaign staff, would you support them joining a labor union?

Yes

Is there anything from your past that might hamper your success as a candidate?

No

Page 3: Candidate Background

Q12

Please describe your background (education, employment, community and civic activity, labor union affiliation etc.) in 200 words or less.

Non-Profit Executive and Attorney with extensive leadership experience in non profit and public organizations. Committed to building healthy, diverse & equitable communities. I envision a world where social, environmental, and economic justice will lead the way to a more humane society. BA - The Evergreen State College
JD - Seattle University School of Law

Q13

Please describe your history of involvement in Washington state politics in 200 words or less.

PCO 20 years.
Young Democrats of WA- vice Chair, Endorsement chair
Young Democrats of America - women's caucus chair
KCDCC - chair (2018)

Q14

Please describe the progress of your campaign and goals in 200 words or less. Why are you running for this position? How do you plan to win?

I am running for King Conservation District Supervisor because I believe conservation is vital for healthy, prosperous communities. The protection of our waterways, fish and wildlife habitats should be our highest priority throughout King County. As a community gardener for nearly twenty years, my connection to the environment is rooted in transforming small lots in urban environments into garden spaces that feed insecure communities.

Q15

What issues do you think aren't getting enough attention from media or elected officials? How would you seek to remedy that through your campaign or when elected?

The increase of domestic violence in homes during the pandemic.

Page 4: Questions for King County Conservation District Candidates

Q16

What are your 6-month and long-term priorities with the King County Conservation District around conservation in King County and how would you achieve them?

My main priority will be to promote healthy soil and water, to and provide access to healthy food to insecure areas. I am also committed to working to ensure that healthy and robust tree canopy is not a luxury reserved for wealthy neighborhoods, but is also found throughout the entire district. I would promote a district wide or city-targeted tree canopy survey to determine which areas are lacking a healthy tree canopy and how we can help.

Q17

There are cities, suburban, and rural areas that do not participate in the conservation district (i.e. Federal Way, Milton, Pacific, Skykomish, and Enumclaw), how would you bring awareness and engage them to join? How do you plan to bring awareness about conservation and KCD in the urban, suburban, and rural areas of King County?

The addition of these areas into the KCD needs to be driven by the community members. The KCD supervisors can help educate community members about the services the district provides (like soil testing) and encourage them to engage their city leadership in discussions about joining.

Q18

Please explain the intersection between racism, poverty, and climate change, and discuss how you would apply and prioritize Diversity, Equity, and Inclusion in decision making.

All decisions are made with a DEI focus. The king county racial equity toolkit should be utilized in decision making on the board of supervisors. I will work to implement that policy. My focus will be to ensure urban and suburban healthy environment benefits (healthy trees, soil, water) are shared fairly across communities, particularly black, indigenous, people of color, and low income communities.
